### **Open Door Day 2015**

On Sunday, April 19th, the “Open Door Day” took place at Elval’s plant, at Oinofyta. For the first time, the company’s doors were opened for the employees to visit the factory together with their families. Participation was very high, more than 1.400 people had fun and got acquainted with the Elval facilities.

The schedule of activities was extensive and directed towards both kids and adults. In the communication hall, kids participated in creative activities such as handcrafts, graffiti wall, air hockey, gardening, face painting and enjoyed performances by Alex – the magician. In the plant’s yard, visitors had a delicious lunch, desserts and refreshments.

The stars of the event were, of course, the little trains, with which participants toured the plant’s premises. Company staff, in the role of guides, explained the route and the production processes of Elval’s products.

This event was dedicated to the staff’s families and everyone enjoyed it immensely.

#### **About ELVAL**

Elval is a leading aluminium processing and trading group in Europe. The Elval Group’s extensive manufacturing base includes 12 production plants in Greece, Bulgaria and the United Kingdom and manufactures numerous different aluminium products that meet the needs of the food, shipbuilding, automotive, construction and printing industries among others. It exports to more than 90 countries and has trading subsidiaries in seven countries. Elval is a subsidiary of Viohalco S.A., the holding company of various metal processing companies in Europe.
