Voluntary Contribution Program 2015

The voluntary contribution program of the ELVAL employees for 2015 was completed. The program, organized for the sixth consecutive year, addressed those members of the local community surrounding the Oinofyta plant that are in need.

The employees of ELVAL believe that commercial enterprise goes along with social responsibility, hence contribution to society is an integral part of the values of the company's staff. Within this mentality, an internal voluntary contribution program was implemented in order to collect dry and canned food, clothing, toys and books.

The program was held from the 1st till the 14th of December and the goods gathered were dispatched to the Holy Metropolis of Thebes and Livadia, for distribution to poor families and non-profit organizations in the surrounding area. The "Agios Vlasios" Chronicle Diseases Infirmary, received part of the goods collected.

"Together we contribute for a better society"

About Elval:

Elval is a leading aluminium manufacturer in Europe. Elval's manufacturing base includes seven production plants in Greece and manufactures numerous different aluminium products that meet the needs of the packaging, construction, transportation and automotive industries among others.
