Projects book by ETEM

In a special edition, ETEM gathered the 100 best projects of all over the world. Hotels, shopping centers, offices and residences are some of the buildings that anyone can admire leafing through the new "Projects Book" of ETEM. Architects, construction companies and consultants trust ETEM Architectural systems to give to their works the added value they deserve. At ETEM, all of our products embody 45 years of experience in designing Aluminium Architectural Systems that offer a friendly and comfortable living environment.

You can find the Projects Book at: <http://www.etem.gr/en/home>
