ELVAL to participate in the Posidonia 2014 Exhibition

ELVAL announces its participation in the Posidonia 2014 exhibition to be held from 2 to 6 of June at the METROPOLITAN EXPO, located next to the "Eleftherios Venizelos" Athens International Airport.

Posidonia, the international shipping exhibition, is the largest gathering in the shipping calendar and takes place every two years in Athens, Greece. Posidonia serves as the main business platform that provides the global maritime industry direct access to Greek shipowners and their executives, operating the largest merchant fleet in the world with more than 4,400 vessels totaling 16% of world's tonnage. Few events can match the scale of this international trade event, which in 2014 is expected to again welcome more than 1.800 exhibitors from 93 countries and over 18.000 visitors. Posidonia week is renowned for the many opportunities it creates to sign business deals, make new contacts, enforce old friendships and network with senior executives of the shipping industry.

ELVAL's High Magnesium family of products consists of Aluminium Alloy Sheets and Plates in various alloys suitable for the marine sector (fast ferries, yachts and general shipbuilding). All these products present elevated mechanical properties (yield strength and ultimate tensile strength), supreme corrosion resistance and excellent weldability, providing material suitable for exposure to highly corrosive environments such as seawater. Upon request, ELVAL provides shipbuilding plates certified by all major classification institutions that include the American Bureau of Shipping, Det Norske Veritas, Lloyds Register, Germanischer Lloyd, RINA and Bureau Veritas.

ELVAL will be present in this year's Posidonia exhibition, along with its subsidiary ETEM and other sister companies of the VIOHALCO Group HALCOR, Hellenic Cables, FITCO and SIDENOR.

Visit ELVAL at our stand: Hall 1, Stand # 1.410.

For more information on the exhibition you can visit the website: <http://www.posidonia-events.com/>

About ELVAL

The ELVAL Group is the aluminium processing and trading division of VIOHALCO. The ELVAL Group's extensive manufacturing base includes 12 production plants in Greece, Bulgaria and the United Kingdom and manufactures a number of different aluminium products that meet the needs of the food, shipbuilding, automotive, construction and printing industries. It exports to more than 80 countries and has trading subsidiaries in seven countries.
